

# TECHNICAL INFORMATION METAL CASE & SPRING MATERIAL

## Metal Case and Spring Material

For Standard applications carbon steel metal case and carbon steel garter springs are supplied. For applications involving corrosion or extreme working conditions a stainless steel alternative can be used. Please refer to the table below for material specifications.

Standard	SAE No.	DIN No.	Material
Metal Case	1008-1010	1624	Carbon Steel
	30304	17224	Stainless Steel
Garter Spring	1070-1090	17223	Piano Wire
	30304	17224	Stainless Steel
